How to use led road flares?

1. Press ON/OFF button to switch ON
2. Push ON/OFF button to select from 9 different flash patterns
3. Press ON/OFF button and hold down for 3 seconds to switch OFF

Application

- 1.Safer and ecologically better for our environment than flame style emergency road flares.
No spark,open flame, fumes or toxic chemicals are produced when using the LED Road Flare.
- 2.Shock resistant construction makes the Flare very durable and can withstand the impact of roadside traffic. Can even be run over by a truck and still operate. Used by fire, police, and other emergency responders.
- 3.Lie flat or on its edge depending on your reference. Place on the road, on construction sites, vehicle bumper or other surface, and anywhere needing emergency signaling.
- 4.The LED Road Flare is waterproof. So, it may be used for marine applications and safely in wet environments, including submerged to a depth of 33 feet. Will float unless secured.
- 5.Using the magnet on the back, attach to any magnetic metal surface. Place on a vehicle, fence, or other metal surface.
