FEATURES

◎ Silicone light strips for internal or external illumination, ideal for transport vehicles and tool carts.
◎ From a minimum of 330mm to a maximum of 10,000mm.
◎ Options for single-color and dual-color models, with colors including blue, amber, red, cool white, and warm white.
◎ Can be directly installed (12V/24V) or with a switch (10-33V).
◎ Made from silicone material, suitable for curved surfaces, and resistant to wear and corrosion.
◎ Installation options include 3M adhesive or metal brackets.
◎ The lampshade features a 3D striped design for even light distribution.
